RESEARCH PROFILE & INTERESTS

B.Sc. CSIT student at Tribhuvan University investigating machine learning applications for wildfire prediction in the Nepal Himalayas. I have engineered predictive frameworks using NASA satellite data and spatiotemporal analysis to support disaster mitigation. I am committed to computational sustainability by developing efficient AI solutions tailored for resource-constrained regions.

EDUCATION

Bachelor of Science in Computer Science and Information Technology (B.Sc. CSIT)

Lumbini ICT Campus, Tribhuvan University, Nepal

Dec 2023 – Present

- Academic Standing:** Cumulative GPA 3.63/4.00.
- Relevant Coursework:** Artificial Intelligence, Statistics, Data Structures & Algorithms, Theory of Computation, Linear Algebra, Object Oriented Programming
- Distinction:** Maintained top-tier ranking in core technical modules (Semester III Peak: 3.74).

TECHNICAL INVESTIGATIONS

ForestSathi – AI-based Wildfire Risk Prediction Model | *Lead Investigator*

- Built a model to identify fire-prone areas by combining NASA satellite data (VIIRS/MODIS) with terrain maps.
- Used Python and Scikit-learn to process environmental data and evaluate results using F1-Score and ROC-AUC
- Technical Stack:** Python (Scikit-learn, GeoPy, Pandas, NumPy), Matplotlib for spatial visualization.

LEADERSHIP & COMMUNITY IMPACT

Executive Member, CSITAN Chitwan

Feb 2025 – Present

- Community:** Managed tech programs for 500+ students to improve practical coding skills.
- Hackfest 2025:** Led the organization of a national hackathon to solve local technical problems.
- Mentorship:** Taught workshops on Data Preprocessing and Git to junior students.
- Collaboration:** Partnered with student leaders across Nepal to share resources and coding sessions.

TECHNICAL SKILLS

- Programming & Data Science:** Python (NumPy, Pandas, Matplotlib), C, C++, JavaScript.
- Machine Learning & AI:** Scikit-learn, XGBoost, Model Evaluation (F1-Score, ROC-AUC), Data Preprocessing.
- Geospatial & Specialized Tools:** LaTeX (Overleaf), Git/GitHub, GeoPy, Linux Environment.
- Languages:** Nepali (Native), English (Professional Working Proficiency), Hindi.
